

The Asphalt Recycling & Reclaiming Association's

In-Place Recycling & Reclaiming Seminar

Seminar for Engineers, Public Officials, and Contractors

Learn from the people who wrote the book. When the FHWA needed an authoritative manual on recycling techniques, they came to the Asphalt Recycling & Reclaiming Association (ARRA) for the latest in technologies. The result was The Basic Asphalt Recycling Manual (BARM).

As the gap between costs and budgets grows wider, recycling and reclamation provide a proven method of getting more done with the fewest resources. This Seminar covers the four cornerstones of current recycling and reclamation technologies:

Locations

Montgomery, AL

Renaissance Montgomery Hotel & Spa at the Convention Center

Sept 30, 2010 1:30pm - 4:00pm

Cold In-Place Recycling

Hot In-Place Recycling

Cold Planing

In each section, the equipment, options, and technical details of the process will be discussed. In addition, local industry experts will cover specific project parameters including project selection, specifications, quality control measures, and additive selection.

Who should attend: The Seminar addresses the needs of professionals at all levels from Interstate Highways to Commercial and Residential Developments—Design Engineers, Highway Engineers, Consulting Engineers, other Public Works Officials, Contractors, and Material Suppliers, who want to incorporate responsible recycling into their pavement program.
